

## ***Selection method of TM-i Firmware Update Tool***

- 1** Load the roll paper in the product and turn the product on.
- 2** Press the push button for approximately 3 seconds.  
When you release the button, a status sheet is printed.

- 3** Check Software under <General Information> on the status sheet. Select the TM-i Firmware Update Tool with the same letter as the text that is added to the version number.  
In the following example, select TMiFW400**WW**UpdateToolPackage.exe because it is 3.10**WW**.
